Obituaries
Object detection
Object oriented databases
Object oriented languages
Object oriented methods

Object oriented programming	Optical fiber applications	Optical parametric oscillators
Object recognition	Optical fiber cables	Optical phase conjugation
Observability	Optical fiber cladding	Optical phase locked loops
Observers	Optical fiber communication	Optical phase matching
Obstetrics	Optical fiber connecting	Optical phase shifters
Occupational health and safety	Optical fiber couplers	Optical planar waveguide components
Ocean thermal energy conversion	Optical fiber coupling	Optical planar waveguide couplers
Octrees	Optical fiber delay lines	Optical planar waveguides
Office automation	Optical fiber devices	Optical polarization
Offset reflector antennas	Optical fiber dispersion	Optical polymers
Ogives	Optical fiber fabrication	Optical position measurement
Ohmic contacts	Optical fiber filters	Optical propagation
Oil circuit breakers	Optical fiber interference	Optical propagation in absorbing media
Oil filled cables	Optical fiber LAN	Optical propagation in anisotropic media
Oil insulation	Optical fiber lasers	Optical propagation in dispersive media
Olfactory system	Optical fiber losses	Optical propagation in nonhomogeneous media
One-port circuits	Optical fiber materials	Optical propagation in nonlinear media
On-off control	Optical fiber measurement applications	Optical propagation in plasma media
Open systems	Optical fiber measurements	Optical pulse amplifiers
Operating system kernels	Optical fiber mechanical factors	Optical pulse compression
Operating systems	Optical fiber polarization	Optical pulse generation
Operational amplifiers	Optical fiber protective covering	Optical pulse measurements
Operations research	Optical fiber radiation effects	Optical pulse shaping
Operators	Optical fiber switches	Optical pulses
Ophthalmic lenses	Optical fiber telemetry	Optical pumping
Optical altimetry	Optical fiber testing	Optical radiation effects
Optical amplifiers	Optical fiber theory	Optical receivers
Optical arrays	Optical fiber thermal factors	Optical recording
Optical beam focusing	Optical fiber transducers	Optical reflection
Optical beam splitting	Optical fiber transitions	Optical refraction
Optical beams	Optical fibers	Optical repeaters
Optical bistability	Optical films	Optical resonance
